Dear Andrew,

Hill End Gold Limited (the “Company”): Quarterly Report Query

We refer to your letter dated 30 April 2014 and respond as follows:

- 1. It is possible to conclude on the basis of the information provided that if the Company were to continue to expend cash at the rate for the quarter indicated by the appendix 5B, taking into account future administration costs, the Company may not have sufficient cash to fund its activities. Is this the case, or are there other factors that should be taken into account in assessing the Company’s position?***

It may be possible to reach such a conclusion, but only if our ongoing cost reduction measures and capital raisings by the Company are not taken into account.

In both the December quarter 2013 and continuing into the March quarter 2014, the Company continued to reduce administration and exploration costs. This should reduce net operating cash flows for the next several quarters, which are, therefore, expected to decrease.

We also note that:

- the Company has refreshed its securities placement capacity under Listing Rule 7.1 and 7.1A at the Company’s AGM held on 28 November 2013, and has to date not used any of that capacity. We are in discussions with institutional and sophisticated investors and have every expectation that sufficient further funds will be raised via a placement to fund operations; and
- the Company has over ~\$1 million in liquid tradable investments in Bassari Resources Limited (ASX:BSR) that can be sold should it be considered necessary to do so.

- 2. Does the Company expect that in the future it will have negative operating cash flows similar to that reported in the Appendix 5B for the quarter and, if so, what steps has it taken to ensure that it has sufficient funds to continue its operations at that rate?**

Consistent with other mineral explorers, the Company expects that it will continue to have negative net operating cash flows in future quarters. Please refer to the response to question 1 for details regarding the steps the Company has taken to ensure that it has sufficient funds in order to continue its operations.

- 3. What steps has the Company taken, or what steps does it propose to take, to enable it to continue to meet its business objectives?**

Refer to the responses to questions 1 and 2 above. The Company continues to review its expenditure commitments and cash requirements. The Company continues to maintain its exploration assets and its \$1.05 million investment in Bassari Resources Limited (ASX:BSR).

- 4. Please confirm that the Entity is in compliance with the Listing Rules and, in particular, Listing Rule 3.1.**

The Company confirms that it is in compliance with the Listing Rules and in particular Listing Rule 3.1.

- 5. Please comment on the Company's compliance with Listing Rule 12.2, with reference to matters discussed in the note to the rule.**

"LR 12.2 An entity's financial condition (including operating results) must, in ASX's opinion, be adequate to warrant the continued quotation of its securities and its continued listing."

The Company confirms that it complies with Listing Rule 12.2, and:

- a. is confident of raising further capital to continue with its strategy outlined above;
- b. has a total direct and indirect 14.2% investment in Bassari Resources Limited, which is an ASX-listed company with advanced projects in Senegal that is currently valued in the Company's books at \$1.05 million, which is below market value; and
- c. has two major gold projects, namely the Hargraves Project and the Hill End Project, which have JORC 2004 compliant resources, and have a combined carrying value of \$18m. These assets and their associated facilities, such as a 30,000 tonnes per year processing plant and real estate, could be sold if necessary to provide future funds.

Yours faithfully
