### Company Update

The Company is an active explorer and developer of its New South Wales tenements and has acquired direct and indirect interests in resource projects. The 100%-owned pre-development Hargraves Gold Project is advancing through the pre-permitting stages for an open pit operation and the Red Hill Project (minimum 85%) has the potential to add significantly to the net profit of a combined project. Additionally, the Company holds shares in ASX-listed Bassari Resources Limited with approximately \$900,000 market value.

Both the Hargraves Gold Project and Mares Nest Gold Prospect have approved drill programs, which the Company wishes to progress. The programs are expected to extend the Company's substantial current gold resources.

At the Mares Nest Gold Prospect historic gold workings occur over a 4 km by 0.5 km area. Mapping, geochemical surveys and channel sampling by the Company have outlined a well-mineralised, 1.2 km long zone in the northern portion of Mares Nest that warrants drill testing, as it has never previously been drilled.

Further information regarding the Company's activities is contained in the Company's 2014 annual report and various announcements, which are available on the Company's website – [www.hillendgold.com.au](http://www.hillendgold.com.au) and on the ASX website - <http://www.asx.com.au/asx/statistics/announcements.do>.
