## HILL END GOLD LIMITED DIRECTORS' REPORT

The Directors present their report on the Company for the year ended 30 June 2004.

### Directors

The Directors of Hill End Gold Limited during the financial year and until the date of this report are:

Alfred Lampard Paton (Chairman)  
Philip Francis Bruce (Managing Director)  
Graham Charles Reveleigh (Executive Director)  
Ian Noel Stuart Sloan (Non-Executive Director)

### Principal Activities

The principal activities of the Company during the financial year were:

- Establishing facilities and constructing plant at Hill End mine site, following the Company's listing on the Australian Stock Exchange Limited ('ASX') on the 17 July 2003;
- Underground development and exploration in the Hawkins Hill Project Area and development towards the Reward Project Area; and
- Surface exploration on the Company exploration licences surrounding Hill End.

### Results

The Company incurred a pre-tax operating loss of \$ 427,473 (2003: loss \$287,225).

### Dividends

No dividend has been paid since the end of the previous financial year and no dividend is recommended for the current year, (2003 – nil).

### Review of Operations

The Company completed an Initial Public Offering raising \$2.57 million after fees and listed on the ASX on the 17 July 2004. It immediately set about establishing operational facilities, hiring staff and constructing plant for the underground activities and for the bulk sampling of gold bearing material. Redevelopment of the Hawkins Hill workings on the Amalgamated level was completed and developing commenced towards the Company's Reward project at Hill End, New South Wales

Redevelopment of the historic Hawkins Hill workings revealed that significant mineralised potential still remains adjacent to the previously mined areas. In addition, exploration targets continue to be identified along the entire Hawkins Hill to Reward area below the previous workings. These targets are in a shallow north-plunging zone about 100 metres wide which outcrops over a strike length of approximately one kilometre. This zone has already produced some 400,000 ounces of gold from shallow workings at Hawkins Hill.

In March 2004 the Company made a placement of \$1 million to undertake surface exploration at the Red Hill project area located five kilometres to the north of Hill End. This was supplemented with a Share Purchase Plan in April 2004, which raised a further \$315,513. The first stage reverse circulation drilling program was undertaken and resulted in the discovery of a resource of approximately 27,000 ounces of gold in three contiguous zones of shallow gold mineralisation, known as White's, Old Red Hill and Marshall McMahon. Further drilling is required to extend these resources in the Red Hill area, particularly along strike and to test the extensive mineralised structural corridor to the east and west of the Hill End Anticline.

**DIRECTORS' REPORT**  
(continued)

**Significant Changes in the State of Affairs**

There were no significant changes in the state of affairs in the Company during the year other than:

- Listing of the Company on the Australian Stock Exchange Limited on 17 July 2003.
- 5.7 million shares voluntary restricted, 1.2 million shares compulsory restricted shares and 612,926 options were released from escrow on 28 October 2003.
- A Placement in March 2004 to sophisticated investors raising for \$1 million; and
- A Share Purchase Plan issued in April 2004 to Shareholders raising \$315,513.

**Subsequent Events**

The Company is in the process of raising further cash to fund its operations through a placement and a non-renounceable entitlement issue. These funds will be used to fund the Company's future operations at Hill End.

**Likely Developments and Results**

Information on likely developments is included in the Chairman's Report accompanying this Financial Report.

**Environmental Issues**

The Hill End Project Area is located on mining leases issued by the Department of Mineral Resources and operates under an environmental licence issued by the Environmental Protection Authority.

These licences require the preparation of an annual Environmental Management Report and a Mining Operations Plan, which will be prepared and forwarded to the Department within two years of the commencement of development at Reward.

The Company had statutory obligations to protect the environment in which it was exploring. During the reporting period the Company did not fail to meet its obligations pursuant to any environmental legislation.

## HILL END GOLD LIMITED

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2004

#### 1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report is a general-purpose financial report that has been prepared in accordance with Australian Accounting Standards, Urgent Issues Group Consensus Views and other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Law. The financial report has been prepared on an accruals basis and is based on historical costs and does not take into account changing money values or, except where stated, current valuations of non-current assets.

Cost is based on the fair values of the consideration given in exchange for assets. The accounting policies have been consistently applied, unless otherwise stated.

The following is a summary of the material accounting policies adopted by the Company in the preparation of the financial report.

##### (a) Exploration, Evaluation and Development Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of an area or where activities in the area have not yet reached a stage, which permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profits in the year which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves. Any costs of site restoration are provided for during the relevant production stages and included in the costs of that stage.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from where exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structure, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly, the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

##### (b) Trade creditors

A liability is recorded for goods and services prior to balance date, whether invoiced to the Company or not. Trade creditors are normally settled within 30 days.

##### (c) Cash

For the purposes of the statement of cash flows, cash included cash on hand and at call deposits with banks or financial institutions, investments in money market instruments maturing within less than two months and net of bank overdrafts.

HILL END GOLD LIMITED

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2004

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES** continued

**(d) Net fair value**

The net fair value of cash, investments and trade creditors approximates their carrying value.

**(e) Revenue**

Interest revenue is recognised on a proportional basis taking in to account the interest rates applicable to the financial assets.

Other revenue is recognised when the right to receive the revenue has been established.

**(f) Income Tax**

Tax effect accounting procedures are followed whereby the income tax expense in the statements of financial performance is matched with the accounting profit or loss (after allowing for permanent differences). The future tax benefit relating to tax losses is not carried forward as an asset unless the benefit can be regarded as being virtually certain of realisation. Income tax on net cumulative timing differences is set aside to the deferred income tax and future income tax benefit accounts at the rates, which are expected to apply when those timing differences reverse.

**(g) Acquisitions of Assets**

The cost method of accounting is used for all acquisitions of assets regardless of whether shares or other assets are acquired. Cost is determined as the fair value of the assets given up at the date of acquisition plus costs incidental to the acquisition.

**(h) Property, Plant and Equipment**

Property, plant and equipment is depreciated so as to write off the cost of each asset over its expected economic life. Additions during the year are depreciated on a pro-rata basis from the date of acquisition.

The depreciation rates used are as follows:

Plant and equipment	20-25% straight line
Office furniture and equipment	25-33 $\frac{1}{3}$ % straight line
Motor vehicles	33 $\frac{1}{3}$ % straight line

**(i) Employee Entitlements**

*Wages, salaries and annual leave*

Liabilities for wages, salaries and annual leave are recognised, and are measured as the amount unpaid at the reporting date at current pay rates in respect of employees' services up to that date.

HILL END GOLD LIMITED

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2004

1. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Earnings Per Share

*Basic earnings per share*

Basic earnings per share is determined by dividing net profit after income tax attributable to members of the company by the weighted average number of ordinary shares outstanding during the financial year.

*Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(k) Comparative Figures

Where required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(l) Impact of Adopting AASB Equivalents to IASB Standards

Hill End Gold Limited will be required to adopt the Australian equivalents of the International Financial Reporting Standards (IFRS) commencing with the financial year ending 30 June 2006. In order to manage the transition to IFRS, the company has allocated internal resources and engaged expert consultants to perform an assessment of the key areas that will be impacted by the transition. Set out below is the key areas where accounting policies will change and may have an impact on the financial report of the company. At this stage the company has not been able to reliably quantify the impacts on the financial report.

*Impairment of Assets*

The recoverable amount of an asset is to be determined as the higher of net selling price or value in use. This will result in a change in the company's current accounting policy, which determines the recoverable amount of an asset on the basis of discounted cash flows. It is not expected that there will be a material impact as a result of the adoption of this standard.

*Income Taxes*

The company will be required to use a balance sheet liability method, which focuses on the tax effects of transactions or other events that affect amounts recognised in either the Statement of Financial Position or a tax-based balance sheet.

## HILL END GOLD LIMITED

### INDEPENDENT AUDIT REPORT

To the Members of Hill End Gold Limited:

#### Scope

We have audited the financial report of Hill End Gold Limited for the financial year ended 30 June 2004 as set out on pages 4 to 20. The company's directors are responsible for the financial report, which includes the consolidated financial statements of the Company comprising the company and the entities it controlled at the year's end or during the financial year. We have conducted an independent audit of this financial report in order to express an opinion on it to the members of the company.

Our audit has been conducted in accordance with Australian Auditing Standards to provide reasonable assurance as to whether or not the financial report is free of material misstatement. Our procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion as to whether or not, in all material respects, the financial report is presented fairly in accordance with Accounting Standards, other mandatory professional reporting requirements and the Corporations Act 2001 in Australia so as to present a view which is consistent with our understanding of the company's and the Company's financial position, and performance as represented by the results of their operations and their cash flows.

The audit opinion expressed in this report has been formed on the above basis.

#### Audit Opinion

In our opinion, the financial report of Hill End Gold Limited is in accordance with:

- (a) the Corporations Act 2001, including:
  - (i) giving a true and fair view of the company's and Company's financial position as at 30 June 2004 and of their performance for the year ended on that date; and
  - (ii) complying with Accounting Standards in Australia and the Corporations Regulations 2001; and
- (b) other mandatory professional reporting requirements in Australia.

- ensuring that directors are aware of their responsibilities.

**HILL END GOLD LIMITED**  
**CORPORATE GOVERNANCE STATEMENT**  
(continued)

**BUSINESS RISKS**

The exploration for and the development of mineral deposits, and the processing of the material from such deposits to extract saleable minerals are speculative activities that involve a high degree of financial risk.

The Board has identified the significant areas of potential business and legal risk for the Company.

The identification, monitoring and, where appropriate, the reduction of significant risk to the Company are highlighted in the –

- annual budget presented to the Board by the Managing Director;
- operating and financial performance reports to the Board;
- annual insurance arrangements with major Australian insurers.

The Board reviews and approves the parameters under which such risks will be managed.

**ANNUAL REVIEW**

It is the Board's policy that the Board should meet at least annually to:

- review the performance of the Board, the Company and Management; and
- review the allocation of the work of the Company between the Board and Management.

**ETHICAL STANDARDS**

The Company recognises the need for directors and employees to observe the highest standards of behaviour and business ethics when engaging in corporate activity.

The Company intends to maintain a reputation for integrity. The Board has adopted a Code of Ethics which sets out the principles and standards with which all officers and employees are expected to comply in the performance of their respective functions.

A key element of that Code is the requirement that officers and employees act in accordance with the law and with the highest standards of propriety. The Code and its implementation are to be reviewed each year.
